

Parenting Children with AD/HD

Meet with other parents who understand both the joys and challenges of parenting kids with ADHD. Share ideas and strategies for creating an environment where your child can flourish. Learn about the disorder and resources in the community. Education and support for parents is now available during day or evening groups. This group is for parents that are just learning about AD/HD and those who continue to live and learn about AD/HD.

- When: **Thursdays 10:00-11:00 a.m.**
