

The right doctor, right away.

These primary care physicians provide you with something **incredibly rare**—a timely appointment. And they're on staff at North Shore Medical Center, which also offers world-class specialists in surgery, cancer, cardiology and more. But, the connections don't stop there. Through **NSMC's collaboration** with Massachusetts General Hospital, our patients have access to the most advanced treatment and specialists. To bring our collaborative care even closer to you, we have opened the **Mass General/North Shore Center for Outpatient Care** in Danvers, providing primary care and other outpatient services.
